growing and fast-spreading millions of our race. These considerations seem fully to justify the presump tion, that the law of population above stated, will continue to act with undiminished effect, through at least the next half century; and that thousands of persons who have already arrived at maturity, and are now exercising the rights of freemen, will close their eyes on the spectacle of more than one hundred millions of population embraced within the majestic proportions of the American Union. It is not merely as an interesting topic of speculation that I present these views for your consideration. They have important practical bearings upon all the political duties we are called upon to perform. Heretofore, our system of Government has worked on what may be termed a miniature scale, in comparison with the development which it must thus assome, within a future so near at hand, as scarcely to be bevond the present of the existing generation.

It is evident that a confederation so vast and so varied, both in numbers and in territorial extent, in habits and in interests, could only be kept in national cohesion by the strictest fidelity to the principles of the Constitution, as understood by those who have adhered to the most restricted construction of the powers granted by the people and the States. Interpreted and applied according to those principles, the great compact adapts itself with healthy ease and freedom to an unlimited extension of that benign system of federative self-government, of which it is our glorious and, I trust, immortal charter. Let us, then, with redoubled vigilance, be on our guard against yielding to the temptation of the exercise of doubtful powers, even under the pressure of the motives of conceded temporary advantage and apparent temporary expediency,

The minimum of Federal Government, compatible with the maintenance of national unity and efficient action in our relations with the rest of the world, should afford the rule and measure of construction of our powers under the general clauses of the Constitution. A spirit of strict deference to the sovereign rights and dignity of every State. rather than a disposition to subordinate the States into a provincial relation to the central authority, should characterize all our exercise of the respective powers temporarily

In like manner, as a manifestly indispensable condition of the perpetuation of the Union, and of the realization of that magnificent national future adverted to, does the duty become yearly stronger and clearer upon us, as citizens of the several States, to cultivate a fraternal and affectionate spirit, language, and conduct, in regard to other States and in relation to the varied interests, institutions, and habits of sentiment and opinion, which may respectively characterize them. Mutual forbearance, respect, and non-interference in our personal action as citizens, and an enlarged exercise of the most liberal principles of comity in the public dealings of State with State, whether in legislation or in the execution of laws, are the means to which a mere political union, on so vast a scale, could vania. A letter from Shulma says of him :-

REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING DECEMBER STH, 1853. TURPENTINE-Has come in very slowly during the week ended to day, and quotations at the close of yesterday's trans

actions show an advance on last Thursday's rates of 5 @ 10 cents on the soft and hard article, \$250 fbs. The sales of the week foot up only 2,759 bbls, as follows: Virgin and Yellow dip. Thursday.... 200.........\$3 80..... Friday...... 3 80...... Saturday 400 3 90 Monday 579 3 90 Wednesday. 375...... 3 90...... 2 25@2 30 IN Life of Mary, Queen of Scotts, by Headley: the Under-The market on yesterday closed firm at above quotations, Ground Mail Agent, illustrated, by Vidi; Kings and Queens;

with a fair demand for the article from shippers and distillers. No sales this morning rs. No sales this morning.

Spirits Turrentine—Has ruled steady since our last reriew and anotations at the close of Tuesday were the same as

Book Store, by

J. T. MUNDS. view, and quotations at the close of Tuesday were the same as | Book Store, by last week (63 cents) There was a sale on Monday on private terms ;-we could not get at the particulars, but it was supposed to have been at a higher figure The transactions of the week have been light, reaching only 976 bbls.

Friday 400 bbls. 63 cents @gallon-bbls. included. Saturday 330 " 63 " do. do. Tuesday 240 " 63 " " do. do. dednesday .. 36 " 63 cenis " do. The sale on yesterday cannot be considered a fair criterion of the market, as it appears to have been a forced sale; 6: cents was freely offered for several parcels, but holders refused to sell at it, and were asking 63 @ 64 cents. The high rates of freight and the scarcity of vessels, has caused a dull ness in the market No sales this morning that we hear of Rosin-In this article we have only small transactions to note this week; 105 bbls common on Thursday last at \$1 05 for small, and yesterday 200 do. do. at \$1 for large size bbls The market for all descriptions is dull, and no buyers. The high rates of treight and the difficulty of shipping, interferes

materially with transactions. TAR-Is in fair enquiry, and market firm at last week's quotation. The receipts of the week are only 100 bbls which have changed hands at \$2 35 @ bbl. COFFEE-We note a shade alteration in our quotations for | brought here- " East India Ale,"-a mild Ale, in Port bot-Java and Rio. There is a fair supply of all descriptions in tles-a fine tonic, and highly recommended for delicate store, and we refer to our table for prices, as in quantity and | people.

Corron-Only one lot (21 bales) has been received since our last review that we know of, which was sold at 10 cents P b. for good quality. There is a fair enquiry for the article, and it meets with ready sale at quotations. EMPTY BARRELS-There is a fair supply of Spirits Turpentine Barrels on market, and sales at \$2 40@\$2 60 each, Cash or approved paper at 90 days, viz: Carriages, Rockaor second hand and new

See table for last sales. FLOUR-Store quotations for Northern brands have advanced a shade, and Canal brands now sell at \$7@\$9 50 @ bbl., as in quantity and quality; supply moderate. Th stock of Fayetteville brands on market is good, and demand We note sales on Tuesday of some 230 bbls. from wharf at \$6 for cross, \$6 25 for fine, and \$6 50 \$6 bbl. for su. urday, at the New Book Store under Manchester Hotel.

Grain-in Corn we note only about 200 bushels having been received to order since last review, and the supply has been received to order since last review, and the supply has nearly all been worked off. There is considerable demand by the Way; People I have met; Life here and there; for the article, and three or four cargoes would meet with Rural Letters, by N. P. Willis; Dream Life; Reveries of a quick sale at a fair price. See table for last week's sales.

—OATS-We have no alteration to note in Oats. There and for sale at the new Book Store, under Manchester have been no receipts for some time past, and a very Hotel. light supply in store; retails at 60 cents & bushel -PEAS-We note no receipts of Cow Peas this week, and the | NTEW WORK ON MECHANISM .- The Artist's Guide supply in store is only moderate. Ground Peas have come in quite freely during the week, and sales made at 80, 85 to Chemistry applicable to the Mechanic Arts, with abstracts

POTATOES—The price of Sweet potatoes continues without change; Irish sell from store at \$2 25 @ \$2 50 \$2 bhl.

Provisions.—The market for N C. Bacon continues decidedly dull, and stock very heavy. One parcel prime quali-
